July 22<sup>nd</sup> 84.

Sir, My friend Dr. Berthold  
Leemann is much in-  
terested in the appearance  
of the work of which I  
enclose a Prospectus &  
kindly circulate it  
for me in Germany.

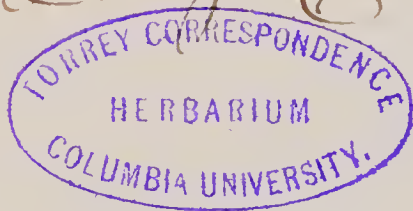

He thinks probably  
you would like to take  
a Copy of it. I wish  
me to make use of his  
name as a recommendation  
of it.

Every effort has been  
made to give the work  
completeness as regards  
the Department to which  
it refers, & I am glad  
that I have no serious

Doubt of the affinity  
of any genus which  
I have examined.

I have the honor  
to be Sir  
Yours very obed<sup>t</sup>ly

Benj<sup>n</sup> E. Park.

J<sup>r</sup> John Torrey.
